**HAWK****FIVE FINGERS PROTECTIVE GLOVES**

**Basic information:** Five fingers gloves from fine leather. Elastic cuff. They are designed primarily for work in dry environment. They are made in sizes 6 - 11 in accordance of Regulation 89/686/EEC, EN420: 2003+A1:2009.

**Instructions for maintenance and use:** Protect the gloves from radiant heat and the influence of chemical substances. After using remove coarse dirt using fine brush and leave the gloves loosely stretched at room temperature.

**Warning:** Gloves should not be used if there is a risk of entanglement with moving machine parts. Always use the correct size and before each use, check the condition of the gloves. Never use damaged gloves. These gloves are simple personal protective equipment designed to protect only against minimal risks, the consequences of which can be fully predicted in advance by the user. They are not suitable for welding, handling chemicals, sharp or hot objects with a temperature higher than 50 °C. Intended only for short term or one-time use. In susceptible individuals, skin irritation may occur. Gloves cannot be washed or dry cleaned.

**Transportation and storage:** Gloves should be transported in the original packaging or in a plastic bag. Store in dry, dark and ventilated place. Shelf life is 5 years from the date of manufacture when stored in suitable conditions.

**Labeling:**

**CERVA** Identification  
Hawk - Name of the glove  
Size of the glove

Date of manufacture (month/year)  
Cat.I - against the minimal risks  
01020020 - Type of glove
